

www.eurogeosource.eu

**for sustainable energy and minerals
supply in Europe**

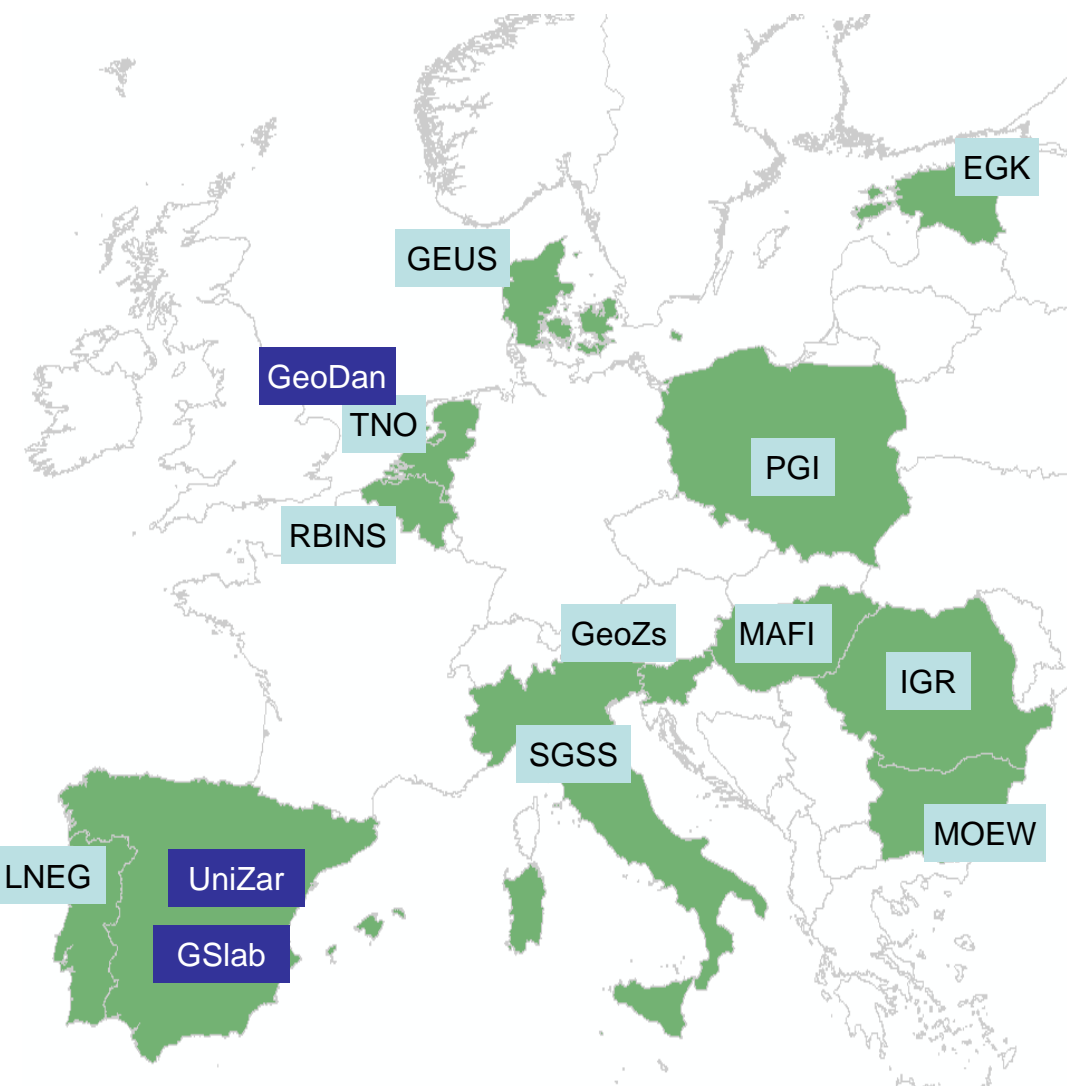

In a nutshell

- **Main objective:**
 - Develop multilingual web GIS system
 - Covering at least 10 European countries
 - To identify, access and use (geo-) information on energy and mineral resources
- **Main data:**
 - Energy (oil and gas)
 - Minerals (and building materials)
 - Related production and industrial sites

Consortium

Web services to:

- identify and access data
- view maps and features
- download data
- run user defined complex queries

Technical

- INSPIRE
 - EuroGeoSource is registered as a Spatial Data Interest Community
- We will further develop
 - GeoSciML: exchange format for geological information
 - EarthResourceML

Advisory Board

International

- United Nations Economic Commission for Europe (UNECE): Expert group on Harmonization of Fossil Energy and Mineral Resources Terminology
- Institute for Energy of the joint research centre of the European Commission (JRC EI)
- Euro Geo Surveys
- European Association of Mining Industries

National

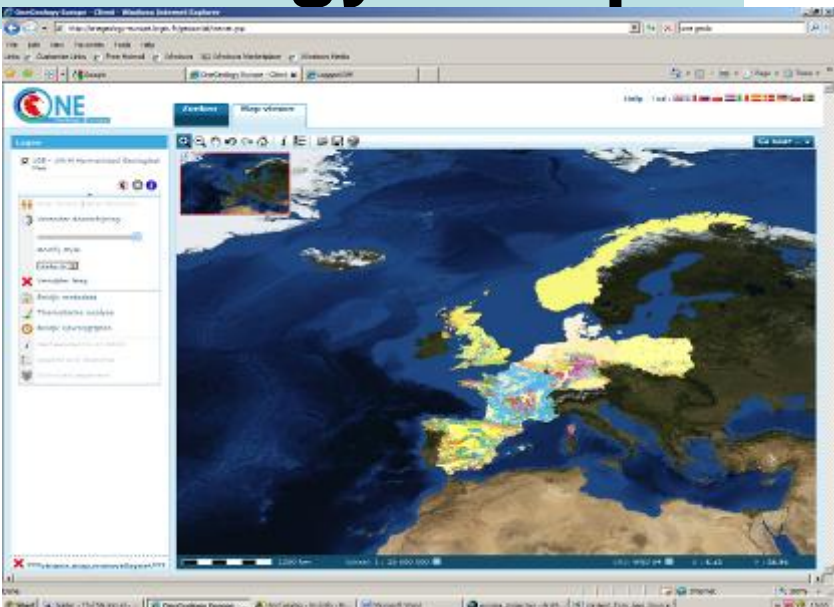

- British Geological Survey
- Directorate for energy of the ministry of Economy of Slovenia
- National Agency for mineral resources of Romania
- Hungarian Office for mining and Geology
- Estonian Association of Mining Enterprise
- Bulgatransgas (Bulgarian national company for storing and transporting gas)
- IGN France International (subsidiary of the French National Geographic Institute)
